

Capacity Coverage:

The Personal Lines Insurance Leader

Capacity Coverage improves your existing benefits program without affecting your bottom line, so everybody wins. Our program provides your employees automobile and homeowners insurance with an A rated company at a discounted rate -- simply because they work for you!

What are the benefits of offering this program to my employees?

- **No drain on your valuable time and resources:** Capacity takes care of all the details. We'll develop a customized program that enhances your current benefits package.
- **No cost to your company:** This is a completely voluntary program for employees without any contributions on your part.
- **Easy implementation:** Just agree to make the program available and our team of experienced, licensed agents will take care of the rest.

Our mission is to offer an expansive range of customized insurance and financial products, while providing superior customer service for all types of businesses, industries and individuals.

This plan is simple and easy. Here are the basics of the program:

- Complete the Employer Questionnaire and Marketing Contract.
- Send out communications to employees of the new and exciting benefit.
- We provide you with a prototype e-mail blast, posters for the office, and payroll stuffers.
- Choose a date/time for an onsite visit from one of our agents to meet with your employees.

Capacity Puts Together the Pieces of the Personal Insurance Puzzle

- We are ranked among the largest 100 brokerage firms in the U.S. by Business Insurance, and we are one of the top 5 privately held brokerage firms in New Jersey.
- Capacity represents a host of the finest and top rated insurance carriers in the world.
- Our collective knowledge of the insurance market place and superior customer service makes us an essential piece to your insurance puzzle.

Let Capacity solve the Personal Lines Insurance puzzle for you
