

Comprehensive Insurance Risk Review Clarifies What Coverage You Need and Why You Need It

As your insurance broker, it is our job to analyze your business and clearly explain your coverage needs to you. We start by assessing the strengths and weaknesses of your current program. Then we perform a review of your entire insurance program instead of just focusing on individual lines of coverage. Our review allows us to advise you how and why your insurance program can be designed to reduce your overall cost of insurance.

We analyze your coverage requirements in these areas:

- Commercial Property
- Commercial General Liability
- Commercial Automobile
- Workers Compensation
- Commercial Umbrella/Excess Liability
- Ocean Cargo
- Boiler & Machinery
- Additional Coverages for Consideration

*We are Risk
Advisors, not
insurance
salespeople*

Your Insurance Risk Review and Exposure Analysis Helps You See Your Business Operation the Way Insurers Do By:

- Analyzing your company's commercial insurance losses, which are compiled in a loss summary
- Identifying areas of high performance, opportunities for improvement, and/or implementation of claims management practice
- Explaining problem situations that increase your risk, offering specific solutions to address them, and telling you the financial benefit for doing so
- Breaking down the insurance issues you need to address in every aspect of your operation
